The day will include...

Brief history of Pyrography, demonstration of various techniques and a display of finished pieces.

Introduction to the craft is by the way of some simple tasks to start with... decorating small plaques, coasters, key fobs, small spoons etc.

Then moving on to the use of other materials such as leather, cork, veneer and paper...

There should be time to have a go at something a little more ambitious such as a bread or cheese board...

Wood turners may wish to bring a small bowl or platter to decorate...

Best timber is Sycamore, Beech, or good quality Birch Plywood... Ash and some woods are very open grain and not the best for pyrography.

**Get creative and come
and have a go...**
